Surabaya, Indonesia

Information Systems graduate from Institut Teknologi Sepuluh Nopember (ITS) with 3.64 GPA, experienced in building end to end data analytics solutions, transformed raw data into insightful dashboard that helps decision support of the company. At telkomsel, I built a machine learning based revenue forecasting system for Base Transceiver Station (BTS) site evaluation. Processing 779,000+ grid tiles and achieving 1.861% MAPE, visualized through a Streamlit Dashboard to support BTS investment decisions. I implemented the same approach in my final thesis, forecasting BBKA stock prices with a hybrid BiLSTM and Multi-Head Attention model at 1.0727% MAPE. Besides technical work, I have led a 250+ member national event committee which demonstrates my cross-team communication and leadership, skills I believe matter for a future role in data analytics banking.

Education

Institut Teknologi Sepuluh Nopember  - Surabaya, Indonesia

Aug 2022 - Aug 2026

Undergraduate Information Systems, 3.64/4.00

- Project Officer, ISE! 2024, a national technology event with 250+ committee members and 1,200+ participants
- Co-authored "Instagram Topic Modeling using LDA," applying NLP and topic modeling techniques to social media text data
- Final thesis: hybrid BiLSTM–Multi-Head Attention model for stock price forecasting (BBKA.JK)

Work Experience

PT Telekomunikasi Selular - Surabaya, Indonesia

Jul 2025 - Dec 2025

Network Performance Analyst Intern

- Built a spatial analytics and forecasting systems to evaluate potential BTS locations based on revenue, population density, and network performance
- Collected, processed, and integrated multi-source datasets (BTS revenue, population tiles, competitor metrics, demographics) across 779,000+ grid tiles into a dataset ready for analysis
- Built forecasting models (LightGBM, Random Forest) using PyCaret, reaching 1.861% MAPE in area-level revenue estimation for Telkomsel Towers across East Java
- Designed a simulation framework for new BTS deployments, with adaptive urban and rural coverage logic and cannibalization risk mitigation
- Presented results as an implementation report via a Streamlit dashboard, communicated to the team to support revenue monitoring and evaluation for BTS operations across the Jawa-Bali region

PT Pelindo Marine Service - Surabaya, Indonesia

Jan 2025 - Feb 2025

Management System & Information Technology Intern

- Learned the Department's operational administrative activities, including drafting and archiving SOP/Work Instruction documents in line with ISO standards
- Collected, presented, and finalized the blueprint document for IMAIS application module as part of the activities of the Department
- Designed Entity Relationship Diagrams (ERDs) for MAROON and MARDOC applications to support structured database development
- Compiled reports to support business processes and workflows

DBL INDONESIA - Surabaya, Indonesia

Nov 2023 - Present

DBL ACADEMY Part-Time Trainer

- Train 100-130 children weekly across 6–8 classes, focusing on effective communication and delivering material appropriate to each age group and maintaining an ongoing coaching strategy alongside full-time studies and internships
- Compile periodic progress assessment reports for program trimester
- Organize internal competition event with fellow coaches, coordinate event execution and field data entry for 200+ students over 2 week period

Committee and Organizational Experience

Information Systems Expo (ISE!) 2024 - Surabaya, Indonesia

Jan 2024 - Dec 2024

Project Officer (Chairperson)

- Led a national technology event engaging 1,200+ participants nationwide, directing a core executive team and 10 divisions totaling 250+ committee members
- Handled strategic planning, risk mitigation, budgeting, and execution across five major sub-events: BIONIX (national IT/business olympiad), RISE (national business case competition), ISE! Academy (public data science bootcamp), IS CLASS (campus visit &

- SNBT tryout), and the closing event Grand Talkshow and Gala Dinner
- Coordinated across 10 divisions covering event operations, marketing, partnerships, and technical delivery

Society of Renewable Energy (SRE) ITS SC - Surabaya, Indonesia

Sep 2023 - Jun 2024

Competency Development Staff

- Led planning and execution of TREX, a technical training program on Ansys Aqwa for hydrodynamics modeling, as Person in Charge across 130+ committee members

Himpunan Mahasiswa Sistem Informasi (HMSI) ITS - Surabaya, Indonesia

Jul 2023 - Oct 2023

Internal Affairs Internship Staff

- Coordinated the 128th Graduation Event as PIC of the MC team, managing event flow and stakeholder communication across a 36-member division

Additional Committee Experience (2022–2023) - Surabaya, Indonesia

- Event operations, logistics, and stage management roles across ISC Dies Natalis ITS 63, ISE! 2023, GERIGI ITS 2023, Futurest 2023, TEDxITS 2023, and Ini Lho ITS! 2023

Certifications and Skills

- Digital Credentials** (2025): Google Cloud Skill Boost 2025 (Prompt Design in Vertex AI, Secure BigLake Data, Automate Data Capture with Document AI), Cisco Networking Academy (Devnet Associate)
- Certifications** (2024): Duolingo English Test — Score 125/B2, Introduction to SAP S/4HANA with GBI 4.2
- Hard Skills:** Python (Pandas, Scikit-learn, PyCaret), SQL, Power BI, ETL (Pentaho, DBeaver), Machine Learning (LightGBM, Random Forest, BiLSTM), Geospatial Analysis, Streamlit
- Soft Skills:** Stakeholder Management, Project Leadership, Cross-Functional Collaboration
